

Flight Safety Notification

General

Flight Safety Notifications (FSNs) are not mandatory in nature, but provide means such as guidance, methods, procedures and practices acceptable to the Authority for complying with regulations and other requirements in a systematic manner. These are not necessarily the only means of compliance. FSNs may also contain explanations of regulations, other guidance material, best practices or information useful to the aviation community. Unless incorporated into a regulation by reference, FSNs are not regulatory and do not create or change a regulatory requirement. A change of a regulatory requirement may come in the form of a Directive. A Flight Safety Notification is not a Directive.

Changes to Airmen Personnel Licences

Reason for Revision: N/A

Purpose

The purpose of this Flight Safety Notification (FSN) is to inform the aviation industry of the change in appearance of the personnel licences issued by the Jamaica Civil Aviation Authority (JCAA) in accordance with Jamaica's Civil Aviation Regulations (CARs), 2012 as amended. This change results from an upgrade in the Personnel Licensing System and Application. The licence card size bearing a measurement of 3.375" x 2.125" remains unchanged.
