## Fire Drill Completed at the Jamaica Civil Aviation Authority (JCAA) – March 26, 2024

The Jamaica Civil Aviation Authority (JCAA) is pleased to announce the successful completion of a Fire Drill, that was conducted at its Winchester Road premises today, March 26, 2024.

The drill, which simulated a fire emergency scenario, allowed the JCAA to test its emergency response protocols and evaluate the effectiveness of its preparedness measures. Team members evacuated the building promptly to designated assembly points, under the guidance of Safety and Emergency Wardens.

Following coordinated efforts between the JCAA's Emergency Response teams and external emergency response personnel, the simulated threat was successfully abated.

The JCAA extends its gratitude to all team members, visitors and stakeholders for their participation in the drill, which provided valuable insights to enhance our emergency response capabilities.

For more information or enquiries, please contact the JCAA at [info@jcaa.gov.jm](mailto:info@jcaa.gov.jm) or visit the JCAA website at [www.jcaa.gov.jm](http://www.jcaa.gov.jm).

*The Jamaica Civil Aviation Authority (JCAA) is an agency of the Ministry of Science, Energy, Telecommunications and Transport, which is responsible for regulating Jamaica's aviation industry and supporting its safe and orderly development.*
